**NOTICE TO OIL & GAS OPERATORS**

Concerning Non-Substantive Rule Changes to R649 et. seq.

\*\*\*\*\*

This letter is being sent as notice of our intent to make several non-substantive changes to the Oil and Gas Conservation General Rules, R649 et. seq.

Non-substantive rule changes consist mostly of corrections and updates and are deemed to be such that they do not impact the way the Division conducts its day-to-day business with its stakeholders. Therefore there is no impact to the parties that are governed by the rules.

The Board of Oil, Gas and Mining has requested that these changes be sent to interested parties allowing for 30 days of review and comment prior to being submitted to the Department of Administrative Services for final review. They are available in PDF format on the Division website at [www.ogm.utah.gov/oilgas/RULES/rulepage.htm](http://www.ogm.utah.gov/oilgas/RULES/rulepage.htm).

Should you wish to comment on the proposed changes, your letter or comment should be sent to the Division of Oil, Gas and Mining attention K. Michael Hebertson, Manager of Hearings and Enforcement, or by e-mail to [michaelhebertson@utah.gov](mailto:michaelhebertson@utah.gov). If you have questions, he can also be reached by phone at 801-538-5333.

Your comments should be received by the Division no later than June 13, 2005.

Sincerely,

Gil Hunt  
Acting Associate Director
